

Low sofa – Collection 2

The Venge sofa is a luxurious and designer piece that will complement the beauty of your garden, terrace or balcony, and will also add elegance to public spaces. Original Polish design combined with premium quality creates a unique piece of furniture that will provide comfort and style to any environment.

Material:

The material from which our products are made is high-quality polyethylene. It is characterized by exceptional resistance to mechanical damage, temperature differences and UV radiation, thanks to which the furniture is extremely durable and retains its functional properties for a long time.

ECO colour – recycled content 30%

Certificate: Plastica Seconda Vita

Application: Inside/outside

Maintenance: For effective furniture cleaning, it is recommended to use a pressure washer, which efficiently removes dirt without damaging the surface. For lighter stains, water with a mild detergent and a soft cloth can also be used.

Additional features: The use of the chair is further facilitated by a drainage hole, which prevents rainwater from accumulating.
